Notes

1. Distance measured is one-way “as the crow flies” (i.e. literally a straight line, point to point) from our distribution point in Azusa, CA to the center point of your zip code, not always the exact delivery address. In almost all cases, this is shorter than actual driving distance or “road miles.” Miles are calculated using this website: [click here](#).
2. There is no minimum order size for Pick Up at the Azusa yard.
3. Some exceptions have been made for areas that are harder to reach due to the terrain or because of a significant difference between crow miles and road miles. Examples include Palmdale, Lancaster, Mt. Baldy, Lake Arrowhead, etc. In all cases, Exceptions are determined solely at the discretion of El Nativo Growers. If you are unsure if your address may fall into an exception area, please contact us for confirmation.
4. The Special Delivery shipping rate depends on several factors including distance, estimated time, consolidated deliveries to the general location, county to county agricultural rules, etc. Our typical rates run \$1.50-\$2 per mile. Call (626) 969-8449 to get a quote. Or email your request to sales@elnativogrowers.com. Frequently, we are able to build a truck with many orders and potentially reduce the delivery charge.
5. Minimum Order and Free threshold values are calculated excluding sales taxes.
