

# Melaleuca wilsonii

Wilson's Honey Myrtle

**Type:** Shrub

**Size:** 4-6'H x 4-6'W

**Exposure:** Sun

**Flower Color:** Pink

**Bloom Time:** Spring

- Native to Victoria and South Australia
- Provides bird habitat
- Attracts nectar-feeding birds
- Flowers can be used in cut floral arrangements
- Recommended for Eucalyptus under story plantings
- Prostrate selection makes an excellent ground cover
- Fine linear leaves are bright green
- Evergreen
- Good choice for a container plant
- Can be used for hedge and screen plantings
- Responds to pruning
- Tolerates frost and alkaline soils
